

Algebra
Slope

Name: _____
Period: _____ #: _____

Find the slope of each of the lines graphed below.

$$\text{SLOPE} = \frac{\text{RISE}}{\text{RUN}}$$

Slope = _____

Slope = _____

Slope = _____

Slope = _____

Slope = _____

Slope = _____

Slope = _____

Slope = _____

Slope = _____

Find the slope of a line that passes through each pair of points.

$$\text{SLOPE} = \frac{\text{change in } y}{\text{change in } x} = \frac{\square y}{\square x}$$

10. A(13, 14), B(10, 10)

11. A(1, 5), B(3, 2)

12. A(7, 8), B(2, 5)

13. A(2, 7), B(2, 5)

14. A(7, 5), B(5, 5)

15. A(10, 8), B(7, 10)
